

SKOOL RUNNR

School App

For students, teachers & parents

Smart Communication & Bus Tracking App

---- X

Skool Runnr is a multilingual smart communication platform for teachers, parents and students. It fosters meaningful and effective interaction between various stakeholders of a child's education. With built-in smarts like intelligent routing of messages to ensure that recipients get it at any cost, multiple event reminders which makes it next to impossible to miss any important event at school, auto translation and transliteration tools to read and write in the language of your choice, integrated live bus tracking system, Skool Runnr is a state-of-the-art communication platform for schools.

Online Exams for Students

-----X

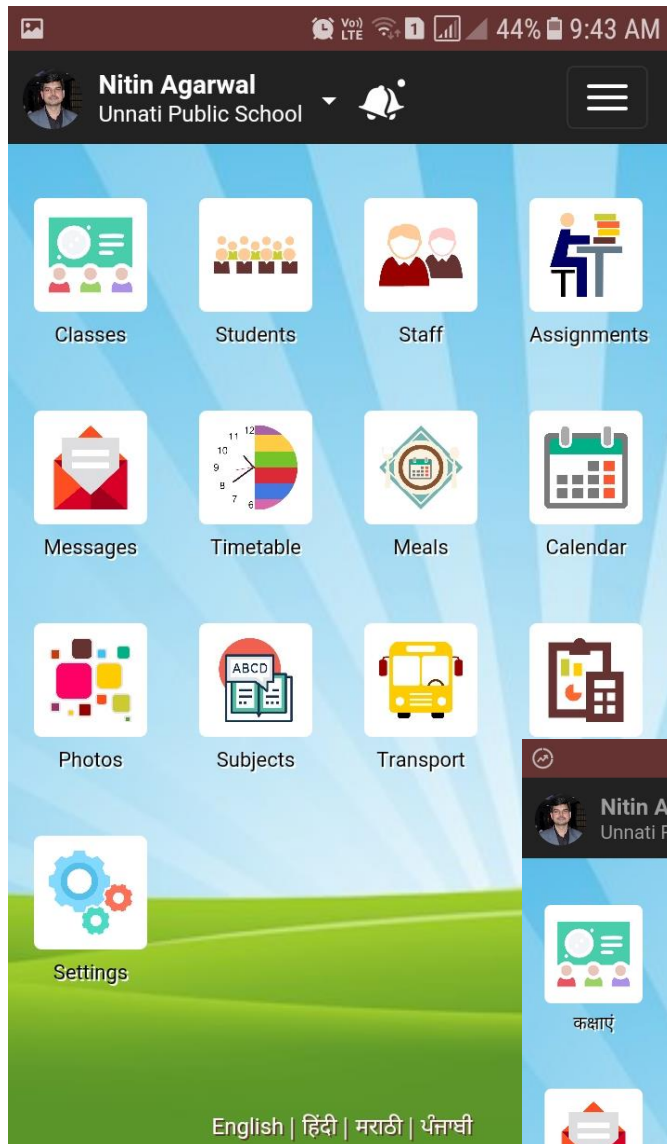

Conduct online exams for students with multiple question types. Allow students to upload answers which cannot be typed or selected. Exams can be scheduled and timed which give students real classroom exam like flavor. Teachers can mark student answer sheets and share them with students & parents. Automatic calendar event and notifications are created for each exam to remind students and parents of upcoming exams.

Supported Question types:

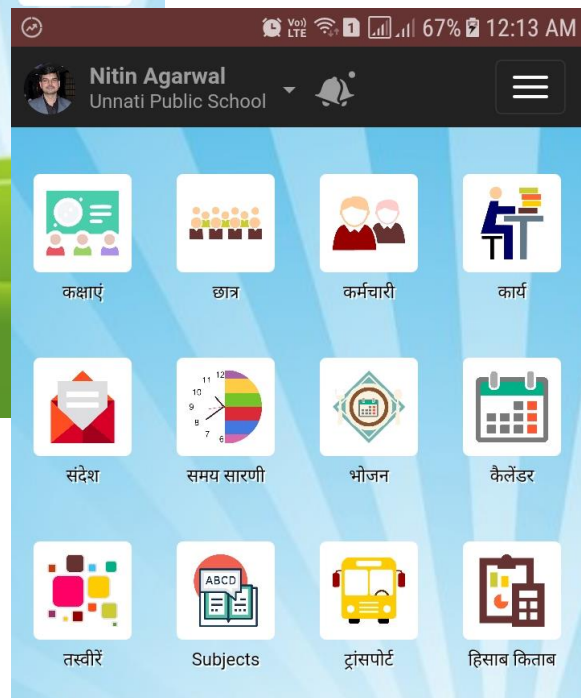

1. Descriptive Question with answer upload (pdf, picture or video)
2. Multi-choice Question with single correct answer
3. Multi-choice Question with multiple correct answers

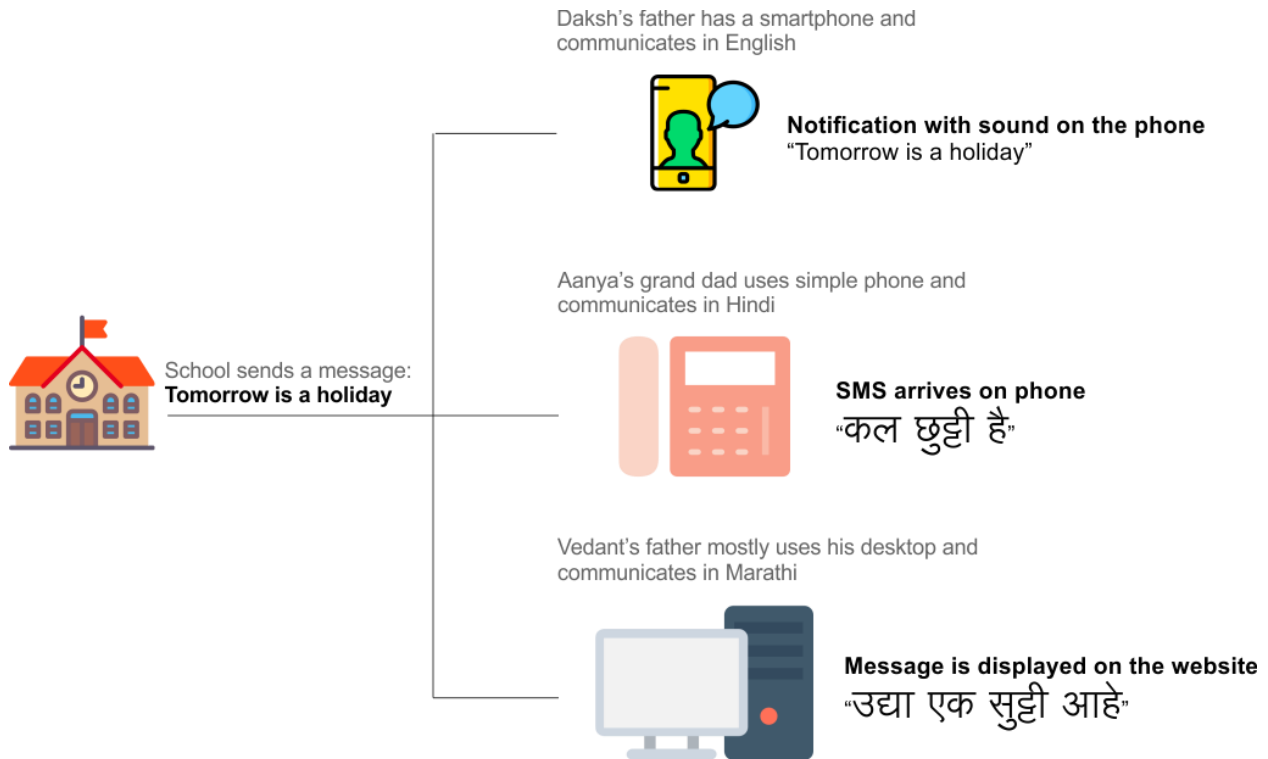

One App for all communication

----- X

Single app for all communication between, school staff, parents and students. App is customized and branded for the school with their name, logo, background and splash screen before being made available on Google Play store and optionally on Apple iTunes store. Multilingual to the core, app supports all Indian languages and users can select the language of their choice to interact with the app.

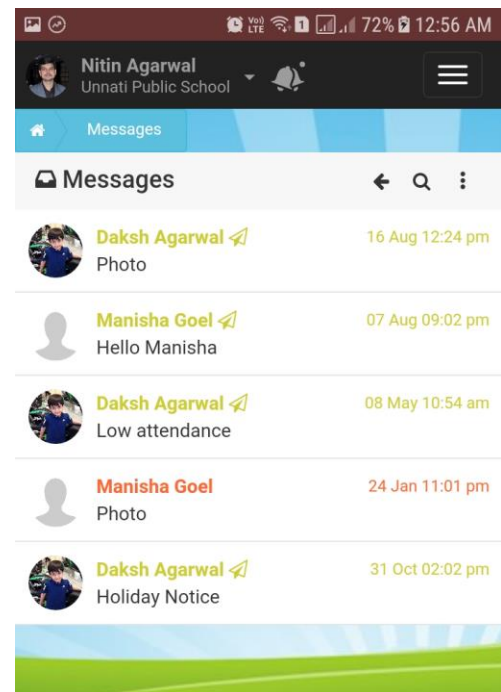

Smart Messaging

----- X

Need to send an urgent message? No problem! School app uses push notifications, SMS and emails to communicate with your users. If a notification is not read within a stipulated time by the user, an email and a SMS is automatically sent to the user.

Some users do not have a smartphone? No Problem! School app automatically sends all important communication as SMS to non-smartphone users.

Broadcast message to whole school or group of classes.

New Broadcast (113/1) English

To
II D x Staff member x Add Recipient

Subject
Krishna Janmashtmi Holiday

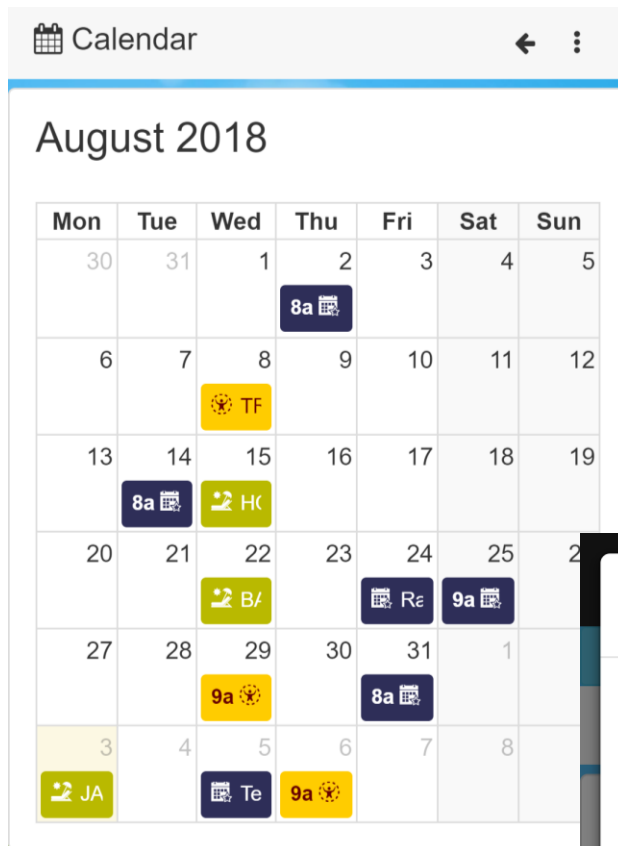

The screenshot shows a mobile application interface for group discussions. It features a white dialog box with a dark green background. The dialog box has a title bar with the text "Attachments" and a blue icon of a photo. Below the title bar, there is a blue link "Add Photo". Underneath, the section "Priority" contains a dropdown menu with "Normal" selected. Below the dropdown is a checkbox labeled "Allow Replies" which is currently unchecked. At the bottom of the dialog box, there are two buttons: a white "Close" button and a blue "Broadcast" button with a white megaphone icon. At the very bottom of the screen, there is a small text "Powered by Skool Kunn" with a small icon.

Hold discussions between a group by allowing replies from recipients and optionally insert photos in messages.

Active Calendars

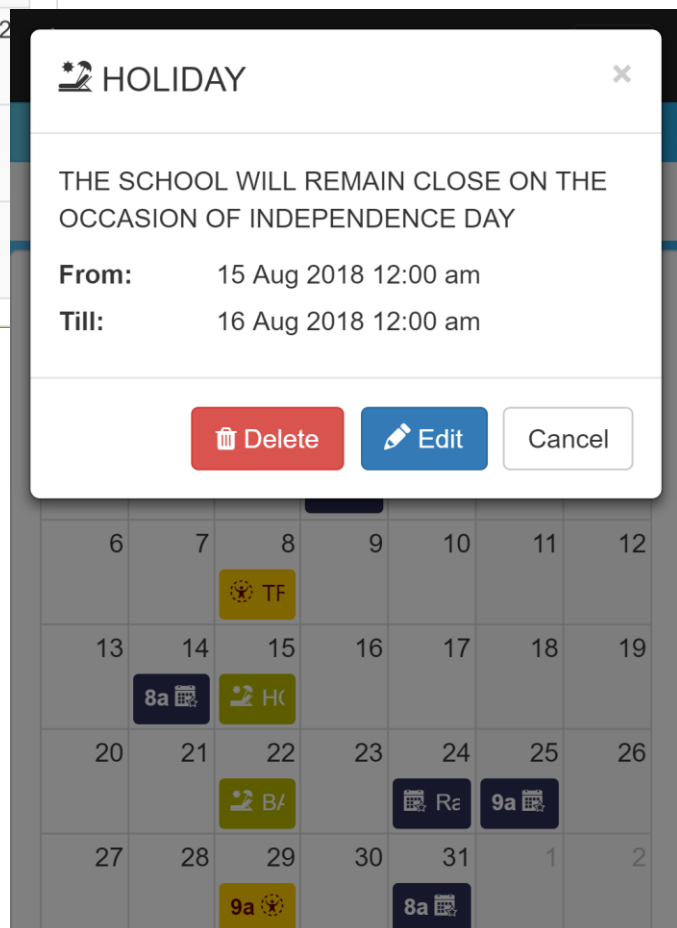

----X

Plan your school year with all the events, activities, exams and holidays in advance and let the school app keep track of upcoming items and send reminders to appropriate audience.

Set up multiple reminders for important events and activities and your users will never miss a thing.

Drag and drop events on the event calendar to conveniently change dates and let school app do the rest by sending event change notifications to your users.

Event reminders are sent by the school app automatically. Multiple reminders for the same event can be set to make sure your users never forget the event.

Calendar events also support multi-language formatting and depending on the user's choice of language all calendar items are shown in that language.

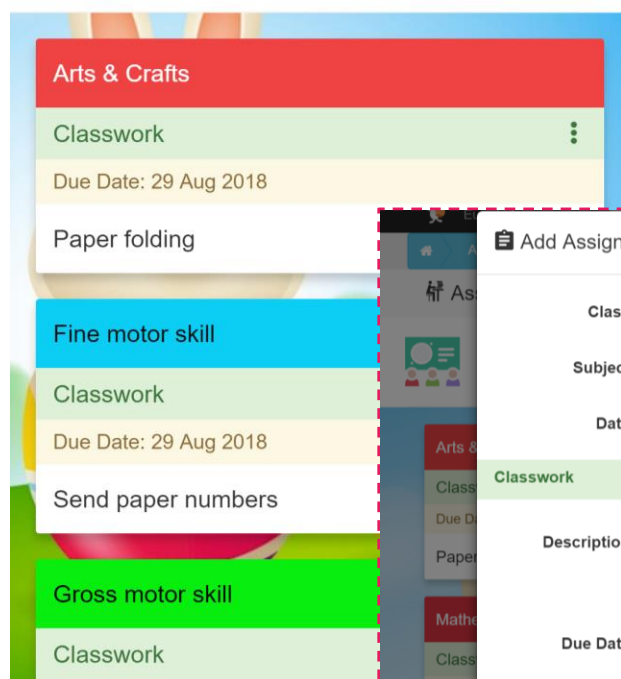

Reminder notifications like message notifications are also converted to SMS for non-app users and for users who do not read app notification within stipulated time.

Assignments

-----X

Attaching paper slips to diaries or writing classwork and homework in student diaries is passé now. Record classwork and homework in your school app and students can see all past and current assignments.

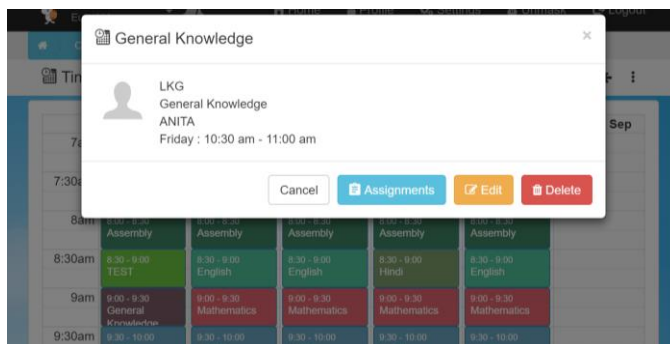

Set due dates and attach worksheet pictures with the assignments. Notifications are automatically sent when new assignments are added or updated.

Record student attendance and share with parents. Allow parents to apply for student leave via school app. Teachers can view all the leave applications and take further action if any.

School app sends out absent notification to parents of kids absent in class for each day.

This module also let parents compare their wards attendance against class and school attendance average.

Media Albums

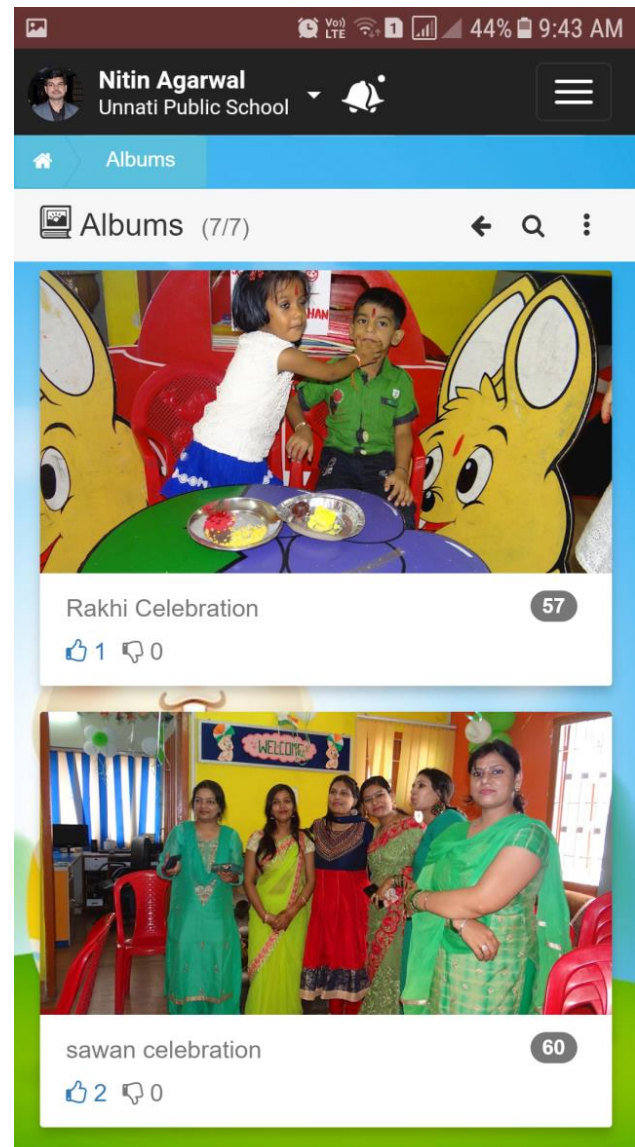

----- X

Create photo and video albums of all the activities in school and share with parents.

Show relevant albums to users by creating class albums which are visible to class students and their parents only.

Users can like, unlike, share and download photos on their smartphones and computers.

“No need to worry about accidentally deleting photos from your phone. All media content is now saved on the cloud and is available at any later date”

Transport & Live Bus Tracking

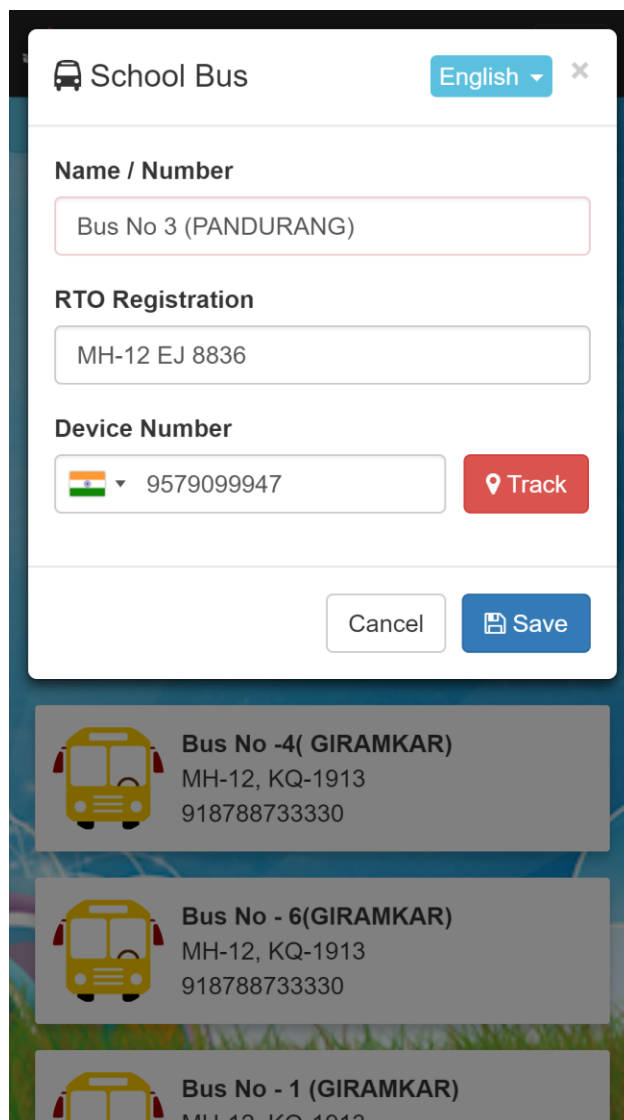

----- X

The screenshot displays a mobile application interface for bus tracking. At the top, the user is identified as Nitin Agarwal from Unnati Public School. The main screen is titled 'Bus Monitor' and features a 'Select Buses:' dropdown menu set to '(6)'. Below this is a map showing the real-time locations of six buses, represented by red bus icons. The map includes labels for various areas such as Sirampur, Wagheshwar, KALEODHA, HILLSHIRE SOCIETY, and PHASE 12. A 'School Bus' icon is also visible on the map. At the bottom, a navigation menu is shown with icons for 'Dashboard', 'Bus Fleet', 'Bus Stops', 'Bus Routes', and 'Settings'.

Live Bus Tracking is integrated into the school app. School has to keep a GPS enabled android phone in the school bus and live bus tracking is activated instantly. School can share live bus location with parents.

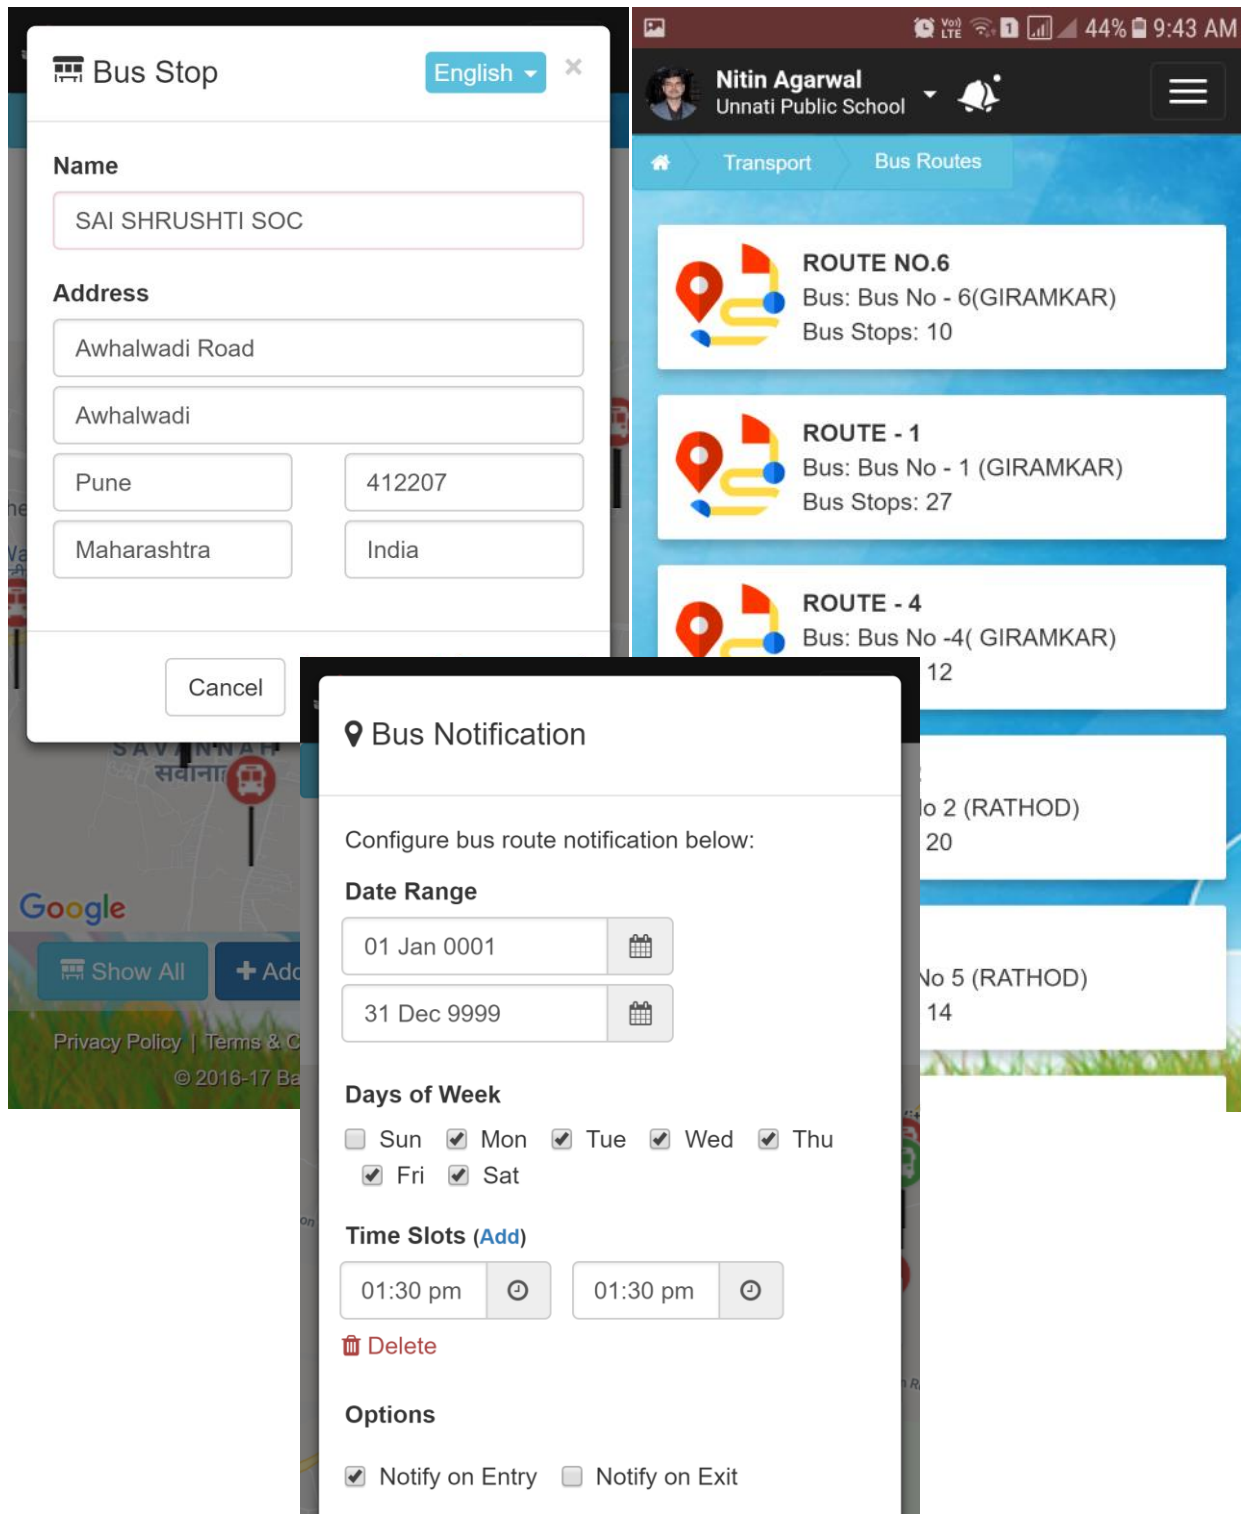

Setup bus tracking in 3 simple steps:

1. Create all school buses and feed in the SIM number that will be kept in each bus.
2. Record all bus stops for all the buses on the map. Give each stop a name for easy identification. Stop information will be used the school app to send bus arrival notifications to their smartphones.
3. Create bus routes by marking the stops for each route. Setup notification conditions so that parents are notified only when they are supposed to.

The screenshot shows the 'School Bus' app interface. At the top, there is a title 'School Bus' with a bus icon and a language dropdown set to 'English'. Below the title, there are three input fields: 'Name / Number' containing 'Bus No 3 (PANDURANG)', 'RTO Registration' containing 'MH-12 EJ 8836', and 'Device Number' containing '9579099947' with an Indian flag icon. To the right of the device number is a red 'Track' button with a location pin icon. At the bottom of the form are 'Cancel' and 'Save' buttons. Below the form, there is a list of existing buses, each with a bus icon and text: 'Bus No -4(GIRAMKAR) MH-12, KQ-1913 918788733330', 'Bus No - 6(GIRAMKAR) MH-12, KQ-1913 918788733330', and 'Bus No - 1 (GIRAMKAR) MH-12, KQ-1913'.

And done! Bus tracking is live!!

Fees & Dues Management

----- X

Fees and other dues management made easy by school app. Use simple screens to enter various school charges and app creates all user receivables in the system. Record payments against receivables and reconcile accounts with a press of a button.

Ref. Id	Payer	Amount
=	ATHARV JHA Student, Playgroup, Eurrokids Charge: TRANSPORT CHARGE Installment: JULY Due Date: 15 Jul 2018	₹ 500 Overdue
